1. The first part of the report is a general statement of the purpose of the study.

The purpose of this study is to determine the effect of the new teaching method on the learning of the subject. The study was conducted in a classroom of 20 students. The results of the study are as follows:

Item	Before	After
1. Understanding of the subject	50%	80%
2. Ability to solve problems	40%	70%
3. Interest in the subject	30%	60%

The results show that the new teaching method has a positive effect on the learning of the subject. The students' understanding of the subject, their ability to solve problems, and their interest in the subject have all increased significantly.
